I. PROPOSED MOBILITY PROGRAMME

Language of training: English

Overall objectives of the mobility:

Participation in the BIP "Architecture and Archaeology in Context:

The Case of Ephesus" organised by the
EELISA Community "Archaeology and Architecture".

Added value of the mobility (in the context of the modernisation and internationalisation strategies of the institutions involved):

Strengthening the collaborations within the EELISA network

Activities to be carried out (including the virtual component, if applicable):

The ancient site of Ephesus in Ionia (Turkey) will be examined from the point of view of Archaeology and its history, archaeological politics, excavation history, conservation - its methods and changes, the presentation of ruins and museums, tourism and overtourism and sustainability. The course has five sessions online and one-week on-site and in-person in Ephesus, Selçuk, and Şirince, during the week of 27 April 2026 - 3 May 2026. The week consists of lectures for and by the learners and site visits. We will work in international teams for the assignments, which address the questions raised during the course.

Expected outcomes and impact (e.g. on the professional development of the staff member and on both institutions):

- In the case of incoming mobility of higher education staff to an organisation, this agreement must be signed by the participant, the beneficiary organisation, the sending HEI and the organisation receiving the staff member (four signatures in total). An additional space should be added for signature of the beneficiary organisation organising the mobility.
